Cotton was very irregular yesterday, with violent fluctuations Late strength was due to the belief that the weekness was favored in the part few days, with reports that Southern mills were looking for country diving the last that Southern mills were looking for country diving the last that Southern mills were looking for country elevators have been shipping the plant there was greatly increased by the declines of an appoles of cotton during the last the extreme low, but there was in evidence only at the extreme low, but there was the mappiles of cotton during the last the same period last were few days, with many who had covered the bedriven to cover again by the reach the greated property of the past few days, with many who had covered the bedriven to cover again by the reach the greated stong, following recent liquidation by many scattered longs and spot houses. The short interest was greatly increased by the declines of the past few days, with many who had covered the bedriven to cover again by the reports the be driven to cover again by the reports the bedriven to cover again by the reports of the past few days, with many who had cover the the bedriven to cover again by the reports the past few days, with many who had cover the bedriven to cover again by the reports and spot houses. The short interest was greatly increased by the declines of the past few days, with many bears believed that the drive at values earlier had been overdone. Although reports have been general that farm work was well advanced, as

as compared with previous years, with all indications that acreage will be increased, Alabama advices yesterday stated that work there is backward, due to the heavy rain recently, and that there was a shortage in the labor supply. Rains are expected over nearly the entire belt, which may retard farm work further. Although about all of the important Southern spot markets were steady yes-terday with quotations unchanged, the New York spot prices declined another 10 points to the lowest level of recent

Thirty counties in northeastern Texas have applied to the State Railroad Comit for this group of counties from New Orleans, depriving the growers of competition in both freights and prices. The committee, J. W. Baird of Paris, Tex. chairman, claims that this discrimination in rates of 50 cents a bale applies to more than half of the Texas cotton crop and results in a loss of \$1,000,000 annually in prices. The natural market, it is claimed, for this portion of Texas is New College, without the college of the college Orleans rather than Galveston. Galveston thus far this year has received over 4,000,000 bales of cotton and New Or-

New Orleans wired: "Improved spot demand on this decline."

THE GRAIN MARKETS.

Wheat Steady on Good Support and

Export Business-Corn Firm. Domestic wheat markets were dull yes-terday, but prices held steady. There was some early selling, with prices easing on the weather indications for rain or snow all over the winter wheat territory, al-though little fell on Wednesday, as shown official reports. Private reports late the afternoon stated that there was scattered Buying.

Scattered Buying.

Scattered Buying.

Scattered Buying.

Scattered Buying.

Scattered Buying.

A very weak opening was again seen in the local coffee market yesterday, with intelled confermation of export sales late Wednesday and further sales yesterday totalling for the two days fifteen loads of hard winter wheat and twenty-five loads of Canadian, but this news was offset by predictions that the export demand would slacken as present needs were filled. Cables were present needs were filled. Cables were largely responsible for the liquidation around the opening, as some prominent mitheaut influence. Flour prices were: Spring patents, \$4.60 to Cash markets were irregular; wheat

rye flour, \$3.60.

A Chicago grain firm writes:
"We see nothing in the situation except to await a little decline and buy new cept to await a little decline and buy new crop futures, believing that conditions later on will develop favorably to hold-ers. Everything points now to a carrying charge between May and July corn. The big elevator interests and others are buy-ing corn and already commencing to make contract corn. This looks as if they would be in position later on when the May longs liquidate to change over at full carrying charges from May to July. We feel that while speculative May corn may be worth present limits we doubt. be worth present limits we doubt, with liberal accumulations here, which are quite likely, if the longs will be able to realize at present level but would wel-come a good break and then believe Sep-tember corn bought on the proper basis will through time become profitable."

COPPER PRICES IMPROVED.

Unexpected Upturn in Producer Quotations to 15 Cents.

There was an unexpected turn in the copper metal market yesterday morning when producers who had previously dropped their electrolytic prices to 14% cents in Europe revised their quotations to 15 cents. Short covering on the part of a big speculative clique who had gone short of standard warrants in the London metal market was one of the principal factors in bringing about the upturn. Ever since the buying there has been a short interest in standard warrants of varying proportions. As the have applied to the State Railroad Com-mission to relieve them of the discrimi-count. As a matter of fact short selling on the London metal exchange was an from a preference given to Texas ports important contributing factor to the weak-and roads as against New Orleans. A differential of 10 cents puts the cotton on the lines leading to Galveston and diverts cents to 14% cents in two months. There has been much speculation in connection with the copper metal market in various ways during the past year or fifteen

months, and transactions on the London metal exchange have constituted but one branch of this feature. Another development which has come to light since the first of the year has been the shipment of unsold copper to Europe, which of course has been reflected in exports from the United States and has naturally bolstered up that item in the producers' reports.

While yesterday's recovery of % cent a

pound was as unexpected as the earlier drop of 14% cents, there has been a general feeling in the trade that with copper at a 15 cent level consumers would willingly buy could they be assured of a stable price. has not been the disposition of the consumers to refrain from buying so much on account of high prices as the uncertainty would insure them against loss in turning out manufactured material.

MISCELLANEOUS MARKETS.

After Opening Weak, Local Coffee

that the export demand would slacken as present needs were filled. Cables were largely responsible for the liquidation without influence. Flour advices indicated little improvement in the trade. Receipts operators feared that he was connected were smaller. At the closing prices were with a firm of a similar name in Havre. Unchanged to \$\frac{5}{5}c\$, higher than Wednesting, There was less pressure on corn because of the change in the Western weather conditions which may restrict the movements. Receipts, however, were some conditions which may restrict the movements. Receipts, however, were some conditions which may restrict the movements. Receipts, however, were sosses on covering. During the moon large, and will continue so unless unhour, however, the undertone regain believed.

PHILADELPHIA, Feb. 20.—Weakness marked the close of the local market to-day. The steady decline in Philadelphia Company issues, beginning early in the day, continued to the close on small lot trading and created a general feeling of apprehension. As a result many local issues suffered. No satisfactory expla-nation was forthcoming in regard to decline of Philadelphia Company stocks, the common closing at 46 and the preferred at 39%. New York interests declared the at 35%. New York interests declared the condition of the company warranted no such movement. Selling orders came from Pittsburg and the stocks were offered down. Philadelphia Electric held firm at 23. Tonopah-Belmont was a weak feature, selling down to 6½, but recovered to 7 3-16 shortly before the close.

Live Stock Market.

Have Stock Market.

THURSDAY, February 20.

Receipts of beeves were 1.441 head, including 8 cars for the market. No trading in live cattle to-day. The feeling was rated steady prices or at 10 213c, for native sides; 94 10 45c, for Texas heef.

Receipts of calves were 495 head, including 277 for the market. Trade quiet and prices barely steady. The pens were not cleared of late arrivals. Common to prime veals sold at 49 13c, 50 per 100 lbs; cuils at 48; barnyard calves and yearlings were nominal. Dressed calves in moderate demand at 142 18c, for city dressed veals with a few selling at 184c; country dressed selling at 11 41 5c.

Receipts of sheep and lambs were 3.075 head, including 3½ cars for the market. Sheep in continued light supply and steady; lambs in limited demand, and no sales of good slock reported up to a late hour. Good sheep sold at 56 per 100 lbs; common lambs at 47.50 48s; a few yearlings at 37.50. Dressed mutton quiet but steady at 32 12 cers lb; a few wethers bringing 12 ½c; cressed lambs slow at 12 ½ 21 5c.; a few hog dressed l6c; country dressed hothouse lambs unchanged at 46 24 9 per carcass.

pany, and 300 steel underframe freight cars for the Norfolk and Western, placed with the Pressed Steel Car Company. As the time for the tariff revision or

steel approaches steel makers are eagerly small looking for all items concerning foreign steel conditions, and they have been alarmed by the demoralization in Great Britain and signs of weakness in German stee prices. Regarding foreign conditions the Berlin correspondent of the Iron Age says:
"Slower selling and somewhat weaker
prices in bars appear to be the most striking features. It is now admitted that works in the west are taking contracts at two to three marks a ton lower than some time ago. On the other hand, foreign buying is still active. As the mills have gives no cause for immediate concern.

"Considerable irregularity in prices is re-ported from the wire trade. Differences of as much as two marks per metric hundred weight on ordinary commercial wire are mentioned, and it is asserted that prices are in some cases lower than twelve months ago. Hesitancy among buyers is reported although some large contracts for the spring months are in sight. In wire nails the unsatisfactory situation is apparently of Austrian and Belgian producers. A price war is on among the Austrian mills which makes the situation in Germany the more precarious. The Middlesbrough, England, correspon-

dent of the Iron Age says:
"In Cleveland pig iron panic conditions in Continental markets, speculative selling and the efforts of long interests to unload have made the position precarious.

hothouse lambs unchanged at the new laws bring corporations or bucarcass.

Receipts of hogs were 1.886 head, including 2½ carr for the market. Prices 10c. reaus which assist underwriting corporations were with general sales at \$8.50 per 100 lbs; a few at \$9; roughs at \$7.50@\$8; stage at \$5. Country dressed hogs firmer at the furlsdiction of the Insurance Department. the new laws bring corporations or bu-reaus which assist underwriting corpora-tions in establishing insurance rates under

After Dividends Are Paid.

The annual report of the F. W. Woolworth Company for the year ended December 31, 1912, shows net profits available for dividends of \$5,414,798. The 7 per cent. paid on the preferred stock amounted to \$1,050,000, and two dividends of 1 per cent. each paid on the company with a surplus of \$3,364,798.

The sales for last year amounted to \$60,557,767. A table shows a substantial increase each year from 1906, when the sales were \$27,670,664 and the profits \$2,723,354, up to the present year. Net profits for last year over the year before increased \$1,941,644, but this is attributed to the expense incurred in opening fifty new stores.

There have been good orders for equipment placed nearly every day recently, which has been about the only source of activity in the steel market. Among the larger recent car orders were 1,000 hoppers and 300 flat cars for the Norfolk and Western, placed Line, placed with the Barney & Simth Company, and 300 steel underframe freight cars for the Norfolk and Western, placed and control of the Norfolk and Western, placed to the company and 300 steel underframe freight cars for the Norfolk and Western, placed and control of the Norfolk and Western, placed and control of the Norfolk and Western, placed and control of the Norfolk and the Norfolk and the Norfolk and the Norfo
